

Hello, friend! Thanks so much for downloading “space world”. I hope it takes your project out of this world!

However you end up using this music, I'd love to see the end result to give it a share and help support!

If the vibes were just right for you on this pack check out my other music packs available or listen to my full music catalog on [Spotify](#) or [YouTube](#).

All WAV files in this pack loop seamlessly, MP3s by nature add a second or two of silence when exported. If you any other questions feel free to reach out at kummelmusic@gmail.com

May the vibes be with you,

-kümmel
